# THE NEW Morrison

## LARGEST BLACKCAP RASPBERRY GROWN

Berries as Large as a Quarter

Would you believe that there could be a Black Raspberry that would grow larger than the Cumberland? Well, there is one now called the Morrison Blackcap. This new variety was found growing wild in Girard, Penna., by County Agent Paul Crossman of Erie County. Mr. Crossman was attracted by its unusually large size, and its shiny jet black color. The berry is much larger than the Cumberland, many of them nearly an inch in diameter. Mr. Crossman says that the plants are very free from disease, and are vigorous growers. We have been fortunate in obtaining a limited amount of these plants for our own propagation purposes, but we are going to let a few of them go to our customers for 1943. Don't wait too long, as when our quota is sold, we will have to refund the money, and you will have to wait to get your start.

MORRISON excels as a berry for both home and commercial planting. The large attractive berries meet all culinary requirements. They are high in quality, firm texture, juicy, not so seedy as other blackcaps.

Morrison

MORRISON Berries hold up longer in grocery and market displays. They will outyield other black raspberry varieties.

"Not just another blackcap."

"Largest black raspberry I have ever seen."

"No diseased Morrisons have been found to this date," (1940).

"The most promising late black raspberry growing at the New York Station."

Geo. L. Slate.

## THORNLESS DEWBERRY

This is a new Dewberry of the Lucretia type, and is absolutely thornless. This new variety grows like any dewberry, and is very productive, and hardy. This is just as big an improvement as the thornless Boysenberry over the old thorny one, that we do not list any more. Why put up with thorns, and scratched up hands and arms when you can grow our thornless Dewberries. We have just a limited amount of them to offer this year, but get a few of them this year, to get started early. Dewberries are always in good demand, and there is nothing nicer than a dish full of them with sugar and cream.

Price: 12 for \$1.00; 25 for \$1.50; 100 for \$3.95. Bearing-age 2-yr. transplants: 6 for \$1.50; 12 for \$2.50. No discount.

## The ALFRED BLACKBERRY

Our 2-yr. bearing-age plants bear a year sooner—berries first year. STANDS 30 DEGREES BELOW ZERO, GEO. STROMER, ORIGINATOR

Year after year, with diligent care, I have propagated these plants to such an extent that the fruit is now being supplied to the local markets at a fancy price, and is always in good demand. Last year I measured a good many berries that were over one and one-half inches long, and three inches around. Buy from the originator and get GENUINE ALFRED.

**IMMENSE SIZE.** The berries are twice as large as ordinary Blackberries, many of them 1 1/2 inches long, and the finest flavored of all Blackberries. It is practically **coreless**, sweet and delicious. Very small seed.

**EXTREMELY HARDY:** ALFRED can be grown anywhere without winter protection, having withstood 30 degrees below zero, and not a single tip of a branch injured, while our other varieties were frozen to the ground.

**EARLY SEASON.** It ripens a week to ten days earlier than Eldorado and in productivity it is in a class by itself. We have seen them bear a second crop. We picked many crates this year in September.

# Giant Mastodon Everbearer

3 Full Crops in 18 Months  
3 Big Profits

Mastodon has been with us for about 20 years, and in all these 20 years we have never known them to fail on a full crop 5 to 6 months long the same year they are set out. The size of the berry is like Wayzata—very large. It is of very good quality, red all the way through, and fine flavor. Bears as heavy as Wayzata, and make many new runner plants. These new runner plants will also bear towards fall, and then you have a real picking row. This wide row will make fine picking the next June as a spring berry. Mastodon does not require any special soil, care or petting. They grow most anywhere, or on any soil that will grow garden or potatoes. They sell like "hot cakes" on roadside stands, or on any market. It will take a hard freeze to stop the Mastodon from bearing. White frosts will never hurt them at all. A field of Mastodon in full bearing in late November is a sight never to be forgotten. Even after a light snow one can go out and find ripe berries unharmed.

# GEM

## GIANT EVERBEARER

Bears 60 Days After Planting

Gem differs a little from Wayzata and Mastodon in this way. Gem prefers a clay or a heavy sandy loam soil, where Wayzata and Mastodon do well on most any kind of soil. Gem also does best when grown in the hill system, so for best results keep all runners nipped off. The berries are large and smooth, and of a light red color, that ripen up even all around. Bears equally as heavy as Mastodon, and the berries get larger towards fall. Runner plants will bear as well as the mother plant. Gem is a good plant maker. Makes a good June-bearing variety. Bears 3 crops in 18 months. Gem makes a beautiful quart of berries as you can see to the right. This is an actual photograph. Berries like these sell for 50c a quart around Thanksgiving, and bring good prices all summer long.

**SOUTH MICHIGAN NURSERY** New Buffalo, Michigan

# Wayzata Everbearer

Bears in 60 to 90 days

Wayzata is fully as drought-resisting as the old Senator Dunlap variety. Wayzata differs from most all other varieties in this way. It makes very few new runner plants, but stools out all around the mother plant. These stools are really the new plants, and start right in to bear all summer long. If Wayzata is set real early in the spring, or the fall before, they will make quite a few runner plants.

## STARBRIGHT

One of the latest developments by the United States Department of Agriculture. It is a cross between the Chesapeake and Fairfax. Considered one of the prettiest strawberries ever produced. The U.S.D.A. circular states that "The Starbright is being introduced as a midseason commercial and home use variety of great beauty." If you are looking for a berry for a fancy trade by all means plant some Starbright. Not quite such a heavy bearer as the Fairfax, but a little sweeter and not quite so dark in color. The plants grow well, and make a nice fruiting row. Price: 25 for \$1.00; 50 for \$1.75; 100 for \$3.00. NO DISCOUNT.

## MAYTIME

This is another of the U.S.D.A. introductions, and is one of the earliest of all strawberries. It is earlier, more firm, and better flavored than Premier, and that is saying a lot. Maytime is a cross between the Missionary and Fairfax. The berries are large and not too dark for market. Makes a good fruiting row. Try this one too and see how you like it. Price: 25 for \$1.00; 50 for \$1.75; 100 for \$3.00. NO DISCOUNT.

## RED STAR

This is the other new one by the U.S.D.A., and a cross between the Chesapeake and Fairfax. This is the late one. Berries are large, and are born on short stout stems that stay well under the leaves, thus protecting them from late frosts. Makes a good fruiting row, and plenty of money can be made from growing this one, as late berries always bring a high price.

Price: 25 for \$1.00; 50 for \$1.75; 100 for \$3.00. NO DISCOUNT.

The Honey-Sweet Berry

Red to the Heart

Small Hulls — No Green Tips

**3 CROPS IN 18 MONTHS!**

WAYZATA challenges the world in flavor, size and productiveness. Newly set plants will start to bear within 60 days, and continue for nearly 6 months, without any let up, providing they are cultivated once a week, and all weeds kept out. This variety adapts itself to most any type of soil. The plants are hardy and tough. Their dark green leathery-like leaves are rarely attacked by the common strawberry plant diseases.

## WAYZATA

| No Discount  |               |

## MINNESOTA 1166 EVERBEARING

This is the latest and best thing out in everbearing strawberries. We like it a little better than WAYZATA, which up to now was the best everbearing. First, it's a good plant maker, and it bears 60 days after set and no let up all summer and fall. Berries are large, long and pointed. Firm, and very sweet. No green tips. Berries are dark in color and perfectly red clear through. Looks almost like the MISSIONARY berry that grows so well in Florida. It will keep 3 or 4 days after picked, so that alone is a great improvement in everbearing strawberries. There are only two places in the United States where this variety can be bought. We have just 10,000 to offer, so if you delay your order you will be disappointed. The price is 6 for 85c; 12 for \$1.25; 25 for \$2.00; 50 for \$3.00; 100 for \$5.50. LIMIT. NO DISCOUNT.

## Majestic

**A New  
Introduction**

Here is a brand new strawberry, and a good one. Patented October 24th, 1939. The one outstanding feature of the Majestic is that it outbears every other variety. Here is how it compares with other good varieties.

| Name     | Length of Row | Total Quarts |
|----------|---------------|--------------|
| Majestic | 320           | 229          |
| Catskill | 300           | 126          |
| Fairfax  | 600           | 137          |
| Premier  | 640           | 156          |

These tests were made by Mr. D. A. Tucker, assistant Horticulturist of Blacksburg, Va., growing late. Ripens midseason. Berries extremely large, conical shape. Bright golden red in color, and fine, firm texture. Has superior shipping qualities. Has a sweet wild strawberry flavor. Plants disease free. This is a patented variety, and plants from this variety cannot be sold without a permit from the patent holder. Only 4000 needed to plant an acre. Bears nearly 3 times as much as Premier.

# Stromer's PREMIER

## The Most Popular Berry Ever Introduced

If you plant STROMER'S PREMIER you will get the first berries on the market. They will be bearing heavily before other varieties begin. Your biggest picking will be when berries are in good demand and are bringing top prices. Premier will grow anywhere. The plants are sturdy and long rooted, a good drought-resister. The berries are very large, and hold their size to the last picking. The flavor cannot be beaten.

In Premier we offer you the greatest early Strawberry of all time. However, the early ripening of this variety is only one of its many good features. It is immensely productive and, unlike other early ripening Strawberries, the fruit produced by Premier is of the very finest quality, color, texture and flavor; and last but not least, every berry is large in size and uniform in shape. For every purpose that Strawberry is wanted, Premier is supreme—eating, canning, preserving, distant and local market—no other variety can give you any more pleasure, satisfaction or profit. Premier succeeds everywhere and never fails to give a big crop of the very finest berries. The foliage is tough and healthy and grows tall and rank, covering the blossoms and berries, and protecting them from frost and scalding sun.

NO DISCOUNT—VERY SCARCE

## SENATOR DUNLAP

Senator Dunlap is an old well known variety that has made more dollars for berry growers than any other variety. It grows most anywhere, and is the toughest, healthiest and fastest grower of them all. Berries dark red, not so large as others, but the quality is fine. Wonderful for canning, as well as fresh. Sometimes listed as Dr. Burrill.

## FAIRFAX FINE FOR SHIPPING

This is one of the finest Spring bearing strawberries grown. It is an extra good home use berry, and especially for canning and jam making, because it is nearly black. It is the darkest red strawberry we know of. It is so firm that one has to cut or slice them to get them to make juice.

## GOLDEN QUEEN

A beautiful large golden yellow Raspberry. Many prefer this variety to any of the reds or blacks, owing to its sugary sweet-ness, and unsurpassed flavor. Should be in every garden, its beauty and high quality placing it at the head for table use. The canes are hardy, vigorous growers, and heavy croppers.

## Mary Washington Asparagus

There is no variety of Asparagus as good as Mary Washington, and whether for home use only or for market, you cannot afford to grow any other. This wonderful new Asparagus was developed and introduced by the U. S. Department of Agriculture, and although a recent introduction, it has become famous the country over.

Growers everywhere are discarding all other varieties in favor of Mary Washington, because it is earlier, the stalks are larger, more tender, more productive than any other variety.

## SUNRISE

The OUTSTANDING NEW RED RASPBERRY originated by the U. S. Department of Agriculture has now been christened SUNRISE. It comes to fruit growers with many advantages over older sorts.

DR. DARROW and PROFESSOR CLARK describe the new berry in the U. S. Department Circular 397. It originated as a cross between Latham and Ranere. Among other things they say:

"Of most importance about SUNRISE from the standpoint of the practical grower perhaps are:

1. "HARDINESS and RESISTANCE to disease."

2. "EARLINESS and LARGER SIZE of the berry as compared with Ranere."

3. "BETTER TEXTURE and QUALITY of the fruit compared with Latham."

"In New Jersey where SUNRISE had been grown commercially for a period of 6 years, it has been outstanding."

MR. BLACK, a prominent New Jersey fruit grower, writes June 12, 1942.

"Have picked SUNRISE twice from plants planted in the spring of 1941 and had fair picking from this one year old field. They brought 25¢ a pint. We do not think Latham will be ripe for 2 weeks as they are just shedding their petals. Have a good prospect for a heavy crop."

Indian Summer

## INDIAN SUMMER Everbearing

This new two-crop or everbearing red raspberry was introduced by the New York Experiment Station. It bears in July like any other red raspberry, and also in the fall, beginning in September on the new growth, and continues till frost. The berries are large, conical shape, and of extra fine quality. This variety is by far the best of all the everbearing varieties so far. We have discarded St. Regis for this new variety. Prices below.

Latham

# Cumberland

## THE BUSINESS BLACKCAP

This is without question one of the most profitable and popular Black Raspberries ever grown. It is the one safe and reliable commercial variety because you can depend on a big crop regularly. We call it the "Business Blackcap" because it succeeds on all soils and produces its big crop year after year.

We have never known Cumberland to fail, and the best proof that it is a profitable variety is the fact that the demand for plants is greater every year and more Cumberlands are planted than all other varieties combined.

Cumberland is perfectly hardy and tremendously productive. The berries are extra large, glossy black, and not equaled by any other variety in quality, flavor or appearance, except Logan. Whether wanted for market or home use, we can recommend Cumberland to our most exacting customers. Disease free. Twice state inspected plants.

See 2-yr-old prices below.

## Make Fruit Profits Quick

Our 2-yr-old Cumberland Black Raspberry plants will bear you a full crop this year, as these plants are husky transplanted stock that are just loaded with fruit buds, and have a fine healthy root system so that when planted in some good soil will produce beautiful fruit for you in July this year (1943). It is no longer necessary to wait a whole year for your plants to produce. Pay a little more and get the 2-yr-old plants. We have a fine stock of these plants and the price is right. Make fruit profits quick. Have all the fruit you can eat and some to sell. Each, 20c; 6 for 90c; 12 for \$1.50; 25 for \$2.25; 100 for \$6.50.

## PIXWELL Gooseberry

This is the new gooseberry originated by Dr. A. F. Yeager at the North Dakota Experiment Station. As the name implies it "picks well." The berries hang down on slender stems about 2 inches below the branches. This feature together with the fewness and relative softness of its thorns makes picking the fruit a quick and easy operation. Pixwell is absolutely hardy and a good vigorous grower, producing large bushes that carry heavy loads of fruit. The berries are large, oval, an attractive light green color when immature, ripening to pink. Price, 2-yr. No. 1 plants, each 50c; 3 for \$1.35; 10 for \$4.00. No discount.

## WHITE BLACKBERRY

Strange as it may seem, this is a real creamy white Blackberry. Mixed with the jet black ones for dessert, it makes a most wonderful dish. The fruit is about the size of Alfred, with few seeds and quite sweet when fully ripe. The bushes are good, strong growers and very productive. This is not a worthless novelty, but a fruit of real value, and should be in every garden.

1-yr. No. 1 plants: 20c each; 6 for 90c; 25 for \$2.50. 2-year-old bearing-age transplants: 35c each; 3 for \$1.00; 6 for \$1.85; 12 for \$3.00.

## RED LAKE Currant

This new, better and extra hardy large red Currant comes from Minnesota. This Red Lake is the last word in Currants and you will really want a few plants of them even if you think you have plenty of Currants already. Produces long large red clusters that make up into excellent jelly. Ships well, and is the best commercial variety to grow. Red Lake Prices: 2-yr. No. 1, each 35c; 3 for \$1.00; 6 for \$1.75; 10 for \$2.60. No discount.

## MacDonald Rhubarb

The best Rhubarb you can buy. Bright cherry-red color full length of the long stems. Very good producer, tender and fine flavor. You do not need to seed MacDonald, it's so tender. Stays bright red when in sauce or pies. Stems get 2 feet long, and thick as a corn stalk. Price on strong divisions: 40c each; 3 for \$1.00; 10 for \$2.95.

## Horseradish Roots

This is the good old Bohemian horseradish. Will grow anywhere from high light sand to rich bottom land. Grates up fine and tender. White as snow, and strong as Samson. Price: 6 roots for 35c; 12 for 55c.

### It Pays to Mail Your Order Now

20% discount will again be allowed for all 1943 fall orders. If this catalog reaches you after January, 1943, we will allow you 10 days' time to take advantage of the 20% discount. This is done to be fair to folks who ask for the catalog and receive it after discount dates.

Your order will not be  
shipped until you are ready  
for it in the spring.

### Mixed Gladiolus

This wonderful mixture is made up of ten of the best and most popular varieties. All strong growers of every color. All giant flowers and many ruffled ones. 25 for 50c; 75 for \$1.00; 100 for \$1.35. Postpaid. Every bulb will bloom this year. No Discount

### G U A R A N T E E

WE GUARANTEE that our nursery stock is first-class in every respect, free from disease, freshly dug, true to name, and to replace free of charge and refund your money on any shipment which arrives in bad condition, provided claim is made within 5 days after arrival of shipment, with a signed statement from your Express Agent or Postmaster, showing amount of damage. Our stock is carefully handled and full of vitality and, under ordinary conditions, should grow for you. But if it does not, owing to the weather and other conditions over which we have no control, we will replace it at half price the following season, if you notify us not later than October 1, 1943.

### REMITTANCE

Remit by draft, post office money order, express money order, registered letter or personal check. Stamps may be sent for small orders. For the very best service, send money orders.

### REFERENCES

Citizens Bank, Michigan City, Ind. American Railway Express Agent, Postmaster or Dun & Bradstreet.

### CUSHION 'MUMS

These Cushion 'Mums are becoming more popular every year.

**GOLD CUSHION.** Imagine 1,200 flowers on a single plant. It's possible with Gold Cushion. Price, 50c; 3 for \$1.25. Postpaid. (No discount).

**PINK CUSHION.** Grows to a washtub size first year. Blooms early to late. Price, 30c each; 3 for 75c. Postpaid. (No discount).

**RED CUSHION.** Brilliant red, and like Pink Cushion gets large in one year. Price, 30c each; 3 for 75c. Postpaid. (No discount).

**BRONZE CUSHION.** This is a beauty. Bronze color and 1000 blooms open at once. Price, 30c each; 3 for 75c. Postpaid. (No discount).

**WHITE CUSHION.** Same as the others, except that it is snow white, making the plant look like a mound of snow. Price, 30c; 3 for 75c. Postpaid. (No discount).

**SPECIAL OFFER.** One each of the above Cushion 'Mums for only \$1.00. Postpaid. (No discount).

### HARDY PHLOX

A mixture of ten of the best colors and varieties are being offered at a very low price. These plants will start to bloom 50 days after you set them and a killing frost will have to stop them. These are 2-year-old field-grown plants and thrifty. Price, 10 for \$1.00. Postpaid. (No discount).

### GARDENIA

Grow your own glorious Gardenias for Mother's Day. This is the flower of romance, spring and summer blooming. It is a house plant. The most fashionable flower of today. Blooms early spring and fall. Beautiful foliage of rich thick glaucous evergreen leaves. Culture same as Geranium. Each, 45c; 3 for \$1.10. Extra select large husky plants at \$1.00 each. Postpaid. (No discount).

### HARDY LARGE FLOWERING 'MUMS

These are the outdoor type. We offer you ten wonderful plants for only \$1.00. In this collection you will get 1 of the New Early Wonder, peach-blossom color, that sold for \$1.00 each a year or so ago. Nine other named and selected varieties to make up the 10 plants for only \$1.00. Postpaid. (No discount).

### BLUE HYDRANGEA

A rare plant of exquisite beauty, which will produce a fine crop of glorious blue flowers measuring 6 to 10 inches across. A few old ties and rags placed in the hole as you plant will assist them to bloom and stay blue. Or a teaspoonful of aluminum sulphate will do the trick also. Standard size plants, each 50c; 3 for \$1.25. We have a few EXTRA large husky plants at 85c or 2 for \$1.50. Postpaid. (No discount).

# Giant Cultivated

# BLUEBERRIES

## DELICIOUS—PROFITABLE VERY ORNAMENTAL

Blueberries are far superior to the wild Blueberry or Huckleberry. These Blueberries grow in large clusters of the most beautiful blue color, plump, tender and practically seedless. The flavor of these cultivated Blueberries is simply delicious. Bushes will grow to the height of 8 feet. The plant itself is very ornamental.

### JUMBO SIZE

During the summer the foliage is deep satiny green, and against this background hang clusters of berries royal in their magnificence. During autumn the leaves turn bronze, and during the winter months the twigs are red. Buds are pink and open to white, bell-shaped flowers. Two plants should be set out to insure cross pollination, so we would not advise to set just one plant. We are offering 2-year plants that will bear the second year. Blueberries like these sell for 55c and 70c per quart on retail markets.

### REQUIRE LITTLE CARE

Blueberries prefer an acid soil containing an abundance of peat or other partially rotted vegetable matter. They also need a moderate supply of moisture, but good drainage. In other words, water must not stand where they are planted. If your soil is not already acid, this condition can be created by mixing in the soil, old sawdust, pine needles, or soil from the bottom of old wood piles. But the very best thing to use is our Blueberry Grower. This is a sour fertilizer you should use for Blueberries, Evergreens, Azaleas, Rhododendrons or any shrub that requires acid soil.

**2 Plants  
for  
only \$1.30**  
LESS DISCOUNT

### CULTURE

Directions for the use of Blueberry Grower for planting Blueberries or other plants that need an acid condition: Dig a hole large enough for the roots to have a full spread on the bottom, so the ends of the roots do not turn up. Have the hole at least 6 inches deeper than needed. Then pour 1 gallon of Blueberry Grower in the bottom with an equal amount of the top dirt, mix this thoroughly before putting the plant in place. Then use another gallon as you fill the hole up. If the soil is poor, use more of the Blueberry Grower. You will be pleased with the results.

### RUBEL

Ripens about 14 to 18 days later than Cabot. Vigorous, upright bush that is very productive. Berries are moderately large, light blue, attractive, and of good quality, if allowed to ripen thoroughly, but tart if picked too soon. The berry is very firm and therefore an excellent shipper. Most widely grown commercial variety.

| 4-Year-Old Plants | PRICES | Full                                                                                                             |

Yellow Transparent

### YELLOW TRANSPARENT

The finest extra early yellow apple. It ripens in July and the season continues to September. The fruit is of medium size, and can be used for pies and sauce before it is entirely ripe. The flesh is white, mild, juicy, and sweet. Trees grow upright, and can be planted at much less distance than most other varieties. Bears young and regularly. 2- and 3-yr. sizes available.

### TURLEY WINESAP

This is a great Indiana commercial apple. Fruit very large and much redder than other Winesaps. Trees bear in 5 to 6 years, and regularly. 2-yr. and 3-yr. trees available.

### BALDWIN

This widely known variety needs no lengthy description. Fruit medium size, dark red, rich, juicy, winter-keeping apple. 2-yr. and 3-yr. sizes available.

### McINTOSH

McIntosh is a late fall apple. The fruit is red, good size, with white flesh. We would say that it takes the place of the old-fashioned Snow Apple. It's an eating apple. Trees grow fast and bear young. Not a winter keeper. 2- and 3-year sizes available.

### GRIMES GOLDEN

This is a wonderful all winter winter-keeping apple. With only a doubt it is the best pie and cooking apple we have. Fruit medium size, firm and crispy. Bears young. Plant one at least, and 1-year-old sizes available.

McIntosh

Northern Spy

### NORTHERN SPY

This fine well-known winter variety is one of excellent flavor, fine for cooking and baking, as well as about the best eating apple of them all.

### CORTLAND

The young bearing habits of this fine new apple has astonished growers everywhere. It is one of the greatest eating apples, and also a good shipper. It is an offspring of the famous McIntosh. Clings to the tree till picked. Bears 2 to 3 years after planting. Fruit most highly colored red, fine grained, crisp and juicy. 2- and 3-yr. sizes available.

### R. I. GREENING

Large, greenish yellow, tender, juicy and rich. Excellent keeper. Trees grow large and bear regularly. 2-yr. and 3-yr. trees available.

### DOLGO CRAB APPLE

The perfect Crab. Hardy everywhere. Heavy bearer, usually beginning the year after setting. Jells perfectly even when dead ripe. A fine ornamental tree for the lawn as well as a wonderful commercial sort. Rapidly displacing such varieties as Transcendent and Hyslop. Bears young.

**Prices:** 2-yr., 9 1/2 inch trees, each 65c; 3 for \$1.80; 6 for \$3.25; 10 for \$5.00. Super size, \$1.00 each.

### APRICOT

Produces good size fruit of an orange-yellow color with a little dark red check. Very delicious flavor, with a small freestone pit. They are very productive and bear young. As hardy as a peach, and as easy to grow. Ripens in August. Excellent when canned or eaten fresh. Apricot should be called the health fruit, because it is unsuppassed as a regulator. **Prices:** 2-yr-old, 9 1/2 in. caliper: Each \$1.00; 2 for \$1.90. 3-yr-old, each \$1.75; 2 for \$3.00.

Apricot

### VEST POCKET APPLE TREES 6 Varieties All on One Tree!

This is not just a novelty but a wonderful idea where folks have just a limited space to plant trees. This Vest Pocket apple tree will give you six varieties all on one tree. From early to late winter apples. This combination is Double Red Delicious, Yellow Delicious, Dark Red Jonathan, Wealthy, and Crimson Winesap, all budded on Yellow Transparent stock. This will give you 6 varieties. We offer trees that are 2-yr-old and 9 1/2 to 11-1/2 inch. The price is \$1.60 each; 2 for \$3.00. No discount.

3-year-old trees, each \$3.00. No discount.

### DWARF DOUBLE RED DELICIOUS APPLE TREES

These are the same as other Double Red Delicious except that the trees grow dwarf, and can be planted close, as they never get very large. Bear young. **Price:** We offer 3-year-old trees at \$2.50 each, net, no discount.

Double Red Delicious

### 48 APPLES FILL BUSHEL BASKET

NEW BUFFALO, Sept. 18 (Special)  
—Only 48 apples were required to fill a bushel basket by Double Red Delicious, displayed here by George Stromer, head of the South Michigan Nursery.

Mr. Stromer stated that the nursery has picked several thousand bushels of apples at the nursery this fall, and that the apples are the largest and of the highest type they have ever raised.

Packers found no scab and not over two per cent stormy apples. Mr. Stromer added.

### Sure Crop NECTARINE

Fruit as large as Peaches, but entirely fuzzless. Golden orange with blazing red blushes. Strikingly beautiful, and richly flavored. Combine Peach and Apricot flavor. Trees hardy as Peaches, easy to grow.

Prices: 2-yr-old, 9 1/16 inch trees, each 95c; 2 for \$1.80; 6 for \$4.80. 3-yr. old size, each \$1.50.

Turley Winesap

Jonathan

### JONATHAN

Everyone knows that Jonathan is second best seller on any market, Red Delicious being No. 1. Jonathan is a first class eating apple. Not such a good cooker. Fruit dark red, flesh white, and a good keeper. Trees bear young, and yearly. There are more Jonathan and Red Delicious set than all the rest of the varieties combined. 2- and 3-yr-old sizes available.

### DOUBLE RED DELICIOUS

This variety is far superior to the common red Delicious as it is highly colored all around, with no green sides. Double Red Delicious is America's number one apple. It tops the market every time, and seems to bear in a wide range of soils and climates. The fruits are very large, solid red, with the five points, and rather long in shape. Truly a most beautiful apple, and the best eating apple of them all. Flesh slightly yellow, and semi-sweet flavor. 2- and 3-year-old sizes available.

### OLD TIME APPLES

We are offering a few of the old-time apple varieties for your convenience. Here they are:

**GOLDEN RUSSET**  
**RED ASTRACHAN**  
**SWEET BOUGH**  
**20-OUNCE PIPPIN**  
**MAIDEN BLUSH**

It costs more to grow just a few of each variety, so the price will be 75c each for 2-yr-old, 9/16 to 11/16 in. trees. No. 1. No discount.

### ANOKA The Old Folks Apple

Bears first year. No waiting for fruit if you plant Anoka. Hardy in all climates. The best early summer apple of them all. Makes the best of sauce and pies. The fruit is large and striped like a Northern Spy. The trees are not exactly dwarf, but will never grow very large because they start to bear so young. Just the thing for old folks who would not think of planting ordinary apple trees. 2- and 3-yr-old trees available. Have borne in the nursery row. Prices same as other Apples.

## WINDSOR

Large liver-colored dark sweet cherry. One of the best. Sweet, firm and brittle. Ripens middle of July. Little larger fruit than Black Tartarian, and later. Hardy, vigorous.

Hansen Bush Cherry in Bloom

Hansen Bush Cherry

Large Montmorency

## *Stromer's* Cherries

### BLACK TARTARIAN

Here is one of the best all-around big black sweet cherries. Trees are vigorous upright growers, and produce enormous crops year after year. Fruit is large purplish black, shaped round with small pit. Flavor is rich, juicy. Ripens the last of June to early July.

### NAPOLEON

Large heart-shaped, beautiful golden yellow sweet cherry. Flesh is firm and brittle. Small pit. Very sweet. Ripens in July. Trees vigorous and hardy.

### LARGE MONTMORENCY

This is the largest of all pie cherries. Fruit 10 days after Early Richmond. This is the variety that is most widely planted in all cherry-growing sections. Bears second or third year. Very hardy.

### EARLY RICHMOND

This is the earliest of all pie cherries. Fruit medium size, bright red, and juicy. Ripens early June with straw-berriness. Fine for canning and pies, as well as eaten fresh from the tree. Starts to bear young, and is very hardy. The kids will think you if you plant a tree or two for them to climb and eat cherries, as no other fruit will take the place of a tree full of nice ripe juicy cherries.

### SWEET and PIE CHERRY PRICES

2-year-old, 9-16 in. Caliper.

|       |        |        |        |

| Each  | \$0.80 | 5 for  | \$3.50 |
| 3 for | 2.25   | 10 for | 6.50   |

SUPER SIZE trees, \$1.50 each.

All prices less discounts.

## RUSSIAN MULBERRY

If you plant cherry trees this year or now have cherry trees growing, plant a Russian Mulberry for the birds. They will leave your cherries alone, and eat the Mulberries. One tree is enough. Price: 75¢ each. Large, 5-6 ft. tree.

## ORANGE QUINCE

We list only this one Quince as we consider it by far the best. The trees commence to bear very young and produce big crops. Fruit is excellently flavored and of large size. Two-year-old trees, \$1.00; 3 for \$2.75. Super size, \$1.35 each.

### Plant Hansen Bush Cherries Because:

1. They are so easy to grow and are perfectly hardy everywhere.
2. Are good to eat fresh, and make delicious preserves.
3. Bear from the ground up, early, heavily, and annually.
4. Are dwarf growing, bushy, and take up little room.
5. Excellent for hedges, ornamental shrubs and erosion control.

Fruits in one year. Large three-year-old Bush Cherries, ready to bear this year.

Prices: Each, 50c; 3 for \$1.00; 10 for \$2.50; 25 for \$5.00; 100 for \$15.00.

# PLUMS

## STANLEY PRUNE

This new purple (Prune) plum is superior to all plums or prunes. It often comes into bearing the third year, and ripens 10 days earlier than the German Prune. Very hardy, and a very thrifty grower. Fruits are large, bluish purple, sweet, rich and fine. Freestone. Excellent to eat fresh and best of all for canning. It's also a money-maker on the market. Get started now.

Stanley Prune Plum

Yellow Egg

Blue Damson

## GREEN GAGE

Large, round, greenish yellow Plum with a marvelously sweet flavor. Almost lacking in acid. Tender yellow flesh. Hardy, regular and heavy cropper. Bears young and regularly. There should be at least one Green Gage in every back yard.

Green Gage

## CHINESE DATE

The JUJUBE, or Chinese date, is a small tree with bright shiny green foliage producing an abundance of fruit ranging in color from orange to red. The fruit is about the size of a good sized marble and same shape. The fruit is edible, and is not readily eaten by birds. The shiny texture of the fruits and the shiny dark green leaves make a very striking tree. **We offer 2-3 ft. trees at 75c each. No discount.**

See  
Page 8

## UNDERWOOD

This is the earliest of the large new Plums. Ripens from about August 1st to 15th, and attains a size of  $1\frac{3}{4}$  inches. The tree is one of the strongest growers of all these new Plums and gets to be very large, furnishing a large bearing surface to produce wonderful crops of beautiful fruit. Fruit is very attractive; red, firm, juicy flesh, very small pit, freestone. Splendid quality.

## FIEBING

This big red plum was originated in Minnesota. Fruits ripen early and are extremely large in size. Beautiful red color, with freestone pit. Equal to any California plum in quality, size and appearance. It's a good one.

Fiebing

Hale-Haven

## REDHAVEN

See Back Cover for Full Description and Prices

## CORRECT PLANTING BOOKLET

Forty-eight pages of valuable information on planting, pruning and general care of plants, shrubs, trees, etc. Everyone interested in plants should have this book. Supply limited.

**Price 25¢ - If included with order 15¢**

## SOUTH HAVEN

This is the pollinizer variety as well as the best variety next to Hale-Haven. South Haven is the hardiest variety except Hardee. It is a commercial variety as well as a fine canner and home use kind. Freestone, yellow flesh. Tender, sweet. Large. Ripens about 18 days before Elberta. Don't fail to order them to pollinize your other trees of different varieties.

## PEACH PRICES: 2-year-old, 9/16 in. 4-5 ft.

|              |        |               |         |

Prices on a year older transplants or SUPER SIZE 11/16 to 1 in. caliper: Each 75c; 3 for \$2.00; 10 for \$6.00. Should bear a year sooner.

## SEEDLESS PEAR

Brand new variety. Practically seedless. Solid all the way through. Ideal for canning. No waste. It is of the Bartlett type, pure white flesh with yellow blushed skin. Ripens 10 days later than Bartlett and trees bear when 3 years old. A 5-year tree known to bear 3 bushels of fruit. Price, 2-yr-old, 9/16 inch, each \$1.25. SUPER SIZE trees, each \$1.75. (Should bear a year sooner.) No discount.

# PEACHES

## HALE-HAVEN

Introduced by the Michigan Experiment Station. It is a cross between the J. H. Hale and the South Haven. Freestone. Yellow flesh. Firm. Excellent quality. Ripens last week in August. This is what we consider the very best peach of them all. Trees are strong growers, and hardy. This variety will make you big money and should be planted extensively. No better variety ever introduced for canning and eating fresh.

## ELBERTA

This is the standard market peach wherever you go. Fruit very large, oblong shape. Yellow, **freestone**, and tender flesh with a firm skin, which makes it the best shipping peach. Ripens first week in September. Flesh turns to deep red near the pit. Good canning variety.

## POLLY - White Peach

This is the hardiest of all white peaches. Originated at the Iowa Experiment Station, withstands 20 degrees below zero. You folks who live out of the peach country should plant Polly. This is a home use variety, as it's too soft to ship far. The fruit is large, white and **freestone**. Ripens a few days ahead of Elberta. Polly has an outstanding delicious flavor that you will never forget.

## J. H. HALE

Known as the giant of the peaches. No other peach will get as large and fine as J. H. Hale. Ripens 5 days earlier than Elberta. Yellow freestone, beautifully blushed with very small pit. Smooth and fuzzless. It is, however, a shy bearer unless you plant a variety like South Haven near it to make cross pollination. If this is done it will bear as heavy as Elberta, and of much better quality. Grow J. H. Hale and watch the people beat a track to your place for fruit.

Polly

## ROCHESTER

A yellow freestone Peach having the exceptional merit of being early, ripening about August 10th; extraordinarily sweet and early bearing. In other respects it compares favorably with the best standard varieties. Fruit is large, yellow in color, prettily blushed. Flesh sweet, juicy and of delicious flavor. It keeps and ships well. Tree a vigorous grower, hardy and an annual and prolific bearer. Season three weeks before Elberta.

## GOLD DROP

Beautiful golden yellow. Freestone. Sweetest of them all. Not very juicy. When canned the juice will be thick, requires less sugar. Not very much of a market peach. You will sell all you raise right around home. Everyone knows what Gold Drop is for canning.

## DOUBLE FLOWERING PEACH

An ornamental tree, double flowering in early spring. Bears no fruit.

Burbank. Large, white, double flowers.

Camellia. Large, deep red, double flowers.

3 1/2 ft. trees, each 65c; 2 for \$1.20.

# Stromer's GRAPES

## CACO

This is the new quick growing, young bearing delicious sweet, big red grape that is so popular. It has no equal as a home use table grape. It has a peculiar characteristic found in no other grape, in that it is rich in flavor. Its deep wine-red color is so pleasing to the eye. A vine full of these rich red beauties is a sight. They are so easy to grow that everyone should have a few vines in the back yard. Ripening in September like they do, the crop will be harvested long before killing frosts. Always in demand at fancy prices, and roadside stand owners make big money with Caco. Bunches are large, well formed, and make a fancy package. Hardy.

## FREDONIA

This new early black grape was originated at the New York Experiment Station. No other grape contains quite so much sugar as Fredonia. Bunches are large and compact. Very hardy, vigorous grower. Bears second year. Ripens 15 days ahead of Concord, and tops the market on account of its high quality. A few cents spent now for some Fredonia plants will be a lifetime investment, for which you will never be sorry.

## CONCORD

Concord is beyond a doubt the most popular blue grape. More Concord are planted than all other varieties. It is the commercial table and wine variety. Concord is perfectly hardy, having stood 30 degrees below zero without injury. Does well on any soil, but makes the sweetest fruit on light sand that has been well fertilized. Bunches are large, compact and well shaped. Sweet and juicy. Vines grow fast, and bear second year.

## GOLDEN MUSCAT

This new hardy California yellow grape can now be grown anywhere, because it's hardy enough. The berries are large, and form a big compact bunch that is very attractive. Quality is of the best, fruit being meaty with the Muscat aroma. Be sure to have at least one plant of this new variety in your garden or back yard, and be convinced. Price: 2-yr.-old, 95¢ each; 3 for \$2.50.

Bartlett

## PEARS

### BARTLETT

The most popular home use and commercial variety. Large yellow with red check. Flesh tender and juicy. Bears every year. Pest for canning. Price: 2-yr.-old, each 75¢; 3 for \$2.00; 5 for \$2.95. SUPER SIZE trees, \$1.00 each.

### DWARF BARTLETT

These Bartlett trees are on Dwarf roots, and of course will never grow large. Just the thing for a crowded spot. Fruits same as standard Bartlett. Nice 2-year-old trees, \$1.50 each. NO DISCOUNT. Bear young, often second year.

### KIEFFER

This is the winter keeper pear. Bears young. Large size. Fruits have an attractive appearance. Fine keeping and shipping qualities. Price: 2-year-old, 75¢ each; 3 for \$2.00; 5 for \$2.95. SUPER SIZE trees, \$1.00 each.

### VEST POCKET

Here is a VEST POCKET pear tree. Just the thing for folks who have just a limited amount of space. Five varieties of pears - Garber, Bartlett, Seckel, Clapp's Favorite and Kieffer all grafted on 1 tree. Plant one now and have something different. We have only 5-yr.-old husky trees to offer. Bore this year in the nursery now. Price: \$3.00 each. NO DISCOUNT.

## SENECA

Newest Thing in  
Quality Grapes

This is not just another yellow grape. It's different. It's early, and bears heavily. The bunches are good size, compact and tapering. Berries are oval in shape, and sweet as honey. Juicy, yet plenty firm, and best of all, the skin can be eaten with the perry. SENECA can be grown anywhere. It's not a bit fussy, as the vines are so healthy and hardy. Supply still limited.

# Thornless Boysenberry

All of the Good  
Qualities of the Regular  
Boysenberry . . . BUT NO THORNS

This is the early ripening strain of Thornless Boysenberry with canes as smooth as a grape vine. **RIPENS 10 DAYS TO TWO WEEKS EARLIER THAN BOYSENBERRY.** The introducer claims even heavier yields from this Thornless Boysenberry than the common Boysenberry. This new strain Thornless Boysenberry is identical to the Boysenberry except that there are no thorns and it ripens earlier. This is a very good feature as the early berries bring more money. The Thornless is just as hardy, rugged and heavy bearing as its parent the Boysenberry. Vines grow 25 feet long, and this pretty apple-green vine loaded with giant purple beauties is a sight you will never forget, and after you taste a handful of them, other berries will go begging for a while. Delicious with cream and sugar, and when made into jam, it's the last word. Supply of plants still limited, so hurry.

Mock Orange

### MAY DAY TREE

The longest tree of blossoms. The first tree to bloom in the spring and is in full bloom in the middle of April, 1st May. The flowers are single, light pink and fragrant. The tree is straight and although tall, makes good foliage. It is popular in the parks. Birds eat these berries. I have some shrubs for you. May is left to you to decide what form to trim them into. You should have one of these nice trees this year.

May Day  
Tree

### PRUNUS NEWPORT

This ornamental flowering Plum is one of the finest. Upright spreading bush form. Dark red foliage all summer. In spring it will be covered with dainty white flowers. No fruit. A few of these would add really a polished color to your landscape planting. 2-3 ft. trees, each 65¢; 2 for \$1.10.

### MOCK ORANGE, VIRGINIA

This is the new double white Mock Orange that is so fragrant that it will spray a room with perfume when used as a cut flower. No better shrub to drop in the yard. Hardy 18-24 in., 45¢; 3 for \$1.25; 2-4 ft. size, each 60¢; 3 for \$1.50.

### COMMON SNOWBALL

WHITE SNOWBALL. (*Viburnum Sterile*), 12 feet. A well-known favorite with globular clusters of pure white flowers. Most attractive for Decoration Day, as they are usually in full bloom at that time. Can be planted in the shrub border but shows to best advantage as a lawn specimen. 2-3 ft., 60¢ each; 3 for \$1.50.

Prunus Newport

Buddleia, Royal Red

Karl Rosenfield Peony

### PEONY, Karl Rosenfield

8.8. Very large brilliant velvety crimson. Fragrant. Midseason. 3-5 eye divisions. 50c each; 3 for \$1.35; 12 for \$4.00.

### BOSTON IVY

(*Ampelopsis Veitchii*). A grand hardy climbing vine for covering houses, churches, schools, etc. Clings firmly to the smoothest surfaces of rock or wood. The glossy leaves assume, in the autumn, the most beautiful tints of scarlet and crimson. The best vine in existence for growth on brick walls. Sun or shade. 2-yr. plants, 40c each; 3 for \$1.00.

Persian  
Lilac

## The Sensational New Buddleia ROYAL RED

Plant Patent Applied For.

In presenting Buddleia Royal Red we believe we are introducing a new hardy plant that will be the sensation of the plant world for years to come. Royal Red represents 8 years of intensive breeding work, culminating in the first truly red Butterfly Bush. As a hardy summer cut flower plant and as an ornamental lawn shrub, Royal Red is unsurpassed in beauty and usefulness. From July until frost the plant produces an abundance of rich, dazzling red panicles that attract instant attention. For garden planting, Royal Red is one of the most beautiful hardy plants that has ever been produced. The plant is hardy, grows 4 to 6 feet high and the foliage is deep leathery green. The sturdy plants we offer will flower abundantly the first year. Price, 75c each; 2 for \$1.25. Postpaid. **NO DISCOUNT.**

### HYDRANGEA P. G.

Flowers are extra large, white at first turning to a pretty pinkish purple, and later on in the fall to a perfect bronze. Fine winter bouquet. Blooms July to October. 18-24 inch plants, 40c each; 3 for \$1.00; 2-3 ft. size, 75c each.

### HYDRANGEA A.G.

(Hills of Snow)

This is the snowball type Hydrangea. Large blooms in June and lasts all summer. Will grow in the shade as well as sunlight. 18-24 inch plants, 40c each; 3 for \$1.00.

### WEIGELA, Eva Rathke

This is the dark red Weigela that blooms all summer, starting in July. Price: 18-24 inch plants, 35c each; 3 for \$1.00.

### FORSYTHIA (Golden Bell)

Earliest of all shrubs to bloom. Blooms before the leaves start real early in the spring to brighten things up. Often before the last snow is gone. Price: 18-24 in., 35c each; 3 for \$1.00. **Have a few 4-5 ft. plants at 75c each; 3 for \$2.00.**

### WHITE DOGWOOD

(*Cornus Spectabilis*). 18 feet. Flowers white, 3 to 3½ inches in diameter, produced in spring before leaves appear; foliage grayish green, glossy and handsome; in the autumn turning to deep red, presenting a gorgeous spectacle. 2-3 ft., 80c each; 3 for \$2.25.

### BITTERSWEET TREE

A splendid small tree with deep green foliage, with bright autumn color. Loaded with bittersweet berries in early fall. Attract birds. 4-5 ft. trees, each 50c.

### BECHTEL'S DOUBLE FLOWERING CRAB

15 feet. A fine small flowering tree which, when in bloom, presents the appearance of being covered with delicate pink roses, scenting the atmosphere for a long distance with a perfume surpassing the fragrance of the Tea Roses. The cut blossoms have often been taken for roses. The ideal lawn tree for the small yard. 2-3 ft. each 75c; 3 for \$2.00.

### PERSIAN LILAC, Purple

A decided improvement over the common Lilac. A shrub with slender, arching branches, attaining a height of 5 to 10 feet. The foliage is small, the flowers bright purple. Blooms in May and June. A much more profuse bloomer than the common, and does not sprout so from the roots. We consider the Persian much preferable. 2-3 ft., each 50c; 3 to 4 ft., each 75c; 4-5 ft., each \$1.00.

### FRENCH LILAC, Congo

Immense, single, wine-red. A splendid growing variety that produces immense blooms in the greatest profusion. The blooms, when they first open and for several days are sensational because of their great size and richness. Then the color changes to a dull purple. When visitors are in our fields and this variety is at its best, it goes into almost every order. When in its prime, this is the greatest red. Price: 2-ft. plants, each 70c; 3 for \$2.00.

### CLEMATIS, Jackmani

This is the most popular of all the large flowering Clematis. Large, single, velvety violet-purple. Plant Clematis so that the crown, just above where the roots start from, is 6 inches below the ground. **Strong, 2-yr. No. 1 plants, 75c each; 2 for \$1.35.**

Bleeding Heart

### BLEEDING HEART

(*Dicentra Spectabilis*). Makes a plant 18 to 24 inches tall and 18 inches across. Dozens of tall stems loaded with big rose-and-scarlet hearts. Thrives everywhere. **PERFECTLY HARDY PERENNIAL**. Blooming-size divisions: Special at 39c each; 3 for \$1.10.

### RED DOGWOOD

Beautiful red flowers in April and May before leaves appear. Ultimate height 20 feet. Plant 10 to 12 feet apart. Like shade. Hardy. Prices: 18 to 24 inches, not balled, \$1.50 each; 2 for \$2.75; 4 for \$5.25.

French Lilac,  
Congo

## NORWAY SPRUCE

This is one of the easiest and fastest growing spruce. The foliage is dark green throughout the entire season. It is hardy and will grow anywhere—on high sandy ground, clay or even in land that is so low that water stands part of the time. They are fine Christmas trees and for windbreaks, as well as ornamental planting. Make a beautiful driveway when planted on one side or both sides. We have several sizes, and ages to offer at bargain prices.

We have only 10,000 of these fine 4-yr. old Bushy Transplants to offer and we know this will not be half enough, so don't delay your order if you want some of these bargains.

Mugho Pine

## BLACK HILLS SPRUCE

This is one of the most hardy of all the Spruces. It grows usually symmetrical, compact and bushy, and shows good characteristics even in the small trees. 10-15 in. trees, 3-yr., twice transplanted, each 75c; 2 for \$1.40.

## MUGHO PINE

Our Dwarf Mugho Pine are the dwarf, Pincushion type. Compact and hardy. We offer plants six inches tall and a 6-inch diameter top, 5 years old. These dwarf

plants are slow growing but so far superior to the Montana Mugho. 5-year-old dwarf 6x6 in. plants, 75c each; 2 for \$1.40. 6-year-old dwarf 10x10 in. plants, \$1.00 each; 2 for \$1.90.

Black Hills Spruce

## PYRAMIDAL ARBOR-VITAE

Dark green foliage. Hardy, pyramidal shape. Grows anywhere. Plant one on each side of your garden gate or the entrance to your home. 18-24 in. trees, each \$1.00; 2 for \$1.90. 24-36 in. trees, each \$1.75; 2 for \$3.25.

## PFITZER'S JUNIPER

This is one of the most popular Junipers. Spreading type, very hardy. Grows anywhere, even in shade. Wet or dry. Silvery green foliage. 12-15 in. plants, each 75c; 2 for \$1.40. 18-24 in. plants, each \$1.00; 2 for \$1.90. 24-36 in. plants, each \$1.25; 2 for \$4.25.

Pfitzer Juniper

## VIRGINIANA JUNIPER

30 feet. Erect, broadly pyramidal habit; flat, beautifully carved; bright green foliage, dense from ground up; grows rapidly and soon forms a most beautiful tree for any purpose. Usually grows as a tree 5 to 10 feet high and half as wide, but will grow to be a large tree. Used extensively in small hedge planting, for foundation planting, screens and windbreaks and heads the list of Evergreen hedge planting.

18-24 in. trees, 4-year-old transplants, each \$1.00; 2 for \$1.90. 24-36 in. trees, 4-yr-old transplants, each \$1.75; 2 for \$3.25.

vitae

Pyramidal

Virginia  
Juniper

Globe Arbor-Vitae

## IRISH JUNIPER

Of decided columnar form and naturally attracts attention. Foliage dark green, silvery underneath. In other plants it has distinct advantage over anything you can buy. Slender, upright habit, needs no clearing. 12-15 inch trees, each 75c; 2 for \$1.40. 18-24 in. trees, each \$1.00; 2 for \$1.90.

Irish  
Juniper

# Shade and Ornamental TREES

Niobe Weeping Willow

## CUT LEAF WEEPING BIRCH

The Queen of all Birches is this unusually graceful, drooping tree; particularly adapted as a lawn specimen or in groups of three trees for outstanding background. The bark is very white. **8-10 ft., 1 in. caliper, \$3.50 each. 10-12 ft., 2 1/2 in. caliper, each \$7.00.**

## NORWAY MAPLE

One of the most popular shade trees. Large dark green leaves, which stay on late. Grows with broad round top. **6-8 ft. trees, each \$1.30; 2 for \$2.50.**

Cut Leaf Birch

## HARDY FILBERT

Can be grown anywhere. Perfectly hardy. Large well-filled nut. Bears young. **Price, 2-3 ft., 75c; 2 for \$1.25.**

Hardy Filbert

## AMOOR RIVER PRIVET

100 ft. of Hardy Hedge for \$5.25; 12-18 in. tall.

This is the hardiest of all hedges, and one of the most beautiful. Foliage dark glossy green. Leaves stay on long into the winter. Fine white flowers with berries later on. Set 1 foot apart. **12-18 inch, heavy plants, 10 for \$1.00; 100 for \$7.50. NO DISCOUNT.**

## SCHWEDLER MAPLE

Similar to the Norway Maple except that the foliage is of a bright red early in the spring, turning to a beautiful rich bronze-red later and holds its color until fall. **5-6 ft., each \$1.85; 2 for \$3.25.**

## NIobe WEEPING WILLOW

A large tree with long, drooping branches. Very hardy. Fine for parks and near rock gardens or along streams. **4-5 ft., each 55c; 3 for \$1.50.**

Schwedler Maple

## SILVER MAPLE

Rapid growing, producing quick shade for street and park. Leaves are indented, bright green above and silver beneath. **5-6 ft., each 50c.**

## REDBUD (Judas Tree)

Beautiful rose-pink blossoms early in the spring before the leaves appear. Grows to a medium size tree, with heart-shaped leaves. **We offer 2-3 ft. trees for 55c each.**

## THORN, Paul's Scarlet

This is about the most beautiful tree. In early spring it will be covered with double brilliant scarlet blossoms, followed with red berries in the fall. **5-6 ft. trees, each \$1.95; 2 for \$3.60.**

## ALTHEA (Rose of Sharon)

Strong erect growing shrublike trees. Large showy flowers in late summer and fall. We offer a double purple variety. **2-3 ft. strong plants at 40c each; 3 for \$1.00.**

## LOMBARDY POPLAR

A tall, shaftlike column that grows quickly. Makes a fine effect planted along driveways. **5-6 ft. trees, each 35c; 3 for \$1.00.**

## HEDGE PLANTS

### SPIREA VAN HOUTTEI 20 for \$1.00

One of the most common but still one of the most beautiful of all shrubs. So easy to grow. The branches covered with small white blooms will droop gracefully to the ground, and it is sometimes called Bridal Wreath. Blooms early spring. **Prices: 18-24 in. plants. Well rooted and heavy transplants, each 25c; 5 for \$1.00; 10 for \$1.85; 25 for \$3.75.**

Chinese Elm

## CHINESE ELM SHADE TREE

One of the most rapid growing trees. Very durable and hardy. Slender, tough branches. Compact habit of growth with small attractive leaves. Highly recommended for street planting. Grows anywhere, and is one of the best for dry climates. **6-8 ft., each 60c. Extra heavy, 8-10 ft., \$2.50 each.**

## CHINESE ELM HEDGE

The very finest of all hardy hedges, stands 40 degrees below zero, does equally well on very low or very dry soil, can be trimmed or left natural for windbreaks. **12-18 in., 10 for 45c; 50 for \$1.75; 100 for \$3.00.**

## EUROPEAN MOUNTAIN ASH

A fine shade and ornamental tree. Covered from July till midwinter with large clusters of bright red berries. **5-6 ft., \$1.25 each.**

## BLACK WALNUT

NATIVE BLACK WALNUT. A tree of large size and majestic form. The most valuable of all trees for its timber, bringing the very highest price in market. A good shade tree, and the large, oily nuts are of fine flavor and marketable at a fair price. **5-6 ft. trees, each 60c; 3 for \$1.50.**

Black Walnut

## RED LEAF BARBERRY

Foliage is brilliant blood-red in spring. Color holds all summer if grown in the full sunlight. Red berries that will remain all winter. **18-24 inch plants, 30c each; 4 for \$1.00; 10 for \$2.00. NO DISCOUNT.**

## Stromer's Early 8 Weeks PEAS

This giant podded variety is so tender and sweet that they will melt in your mouth. The vines are dwarf and vigorous growers. Earliest of all and best of all, too. Try them now at this reduced price. Supply is limited, so order now. It's time to plant peas. They should be planted as soon as ground can be worked. Price, 1/2 lb., 25c; 1 lb., 40c; 5 lbs., \$1.50, post paid. No discount.

## FIRST OF ALL TOMATO

The Earliest, Largest, Smoothest, Finest Flavored Extra Early Tomato in Cultivation, is what customers say about this "Grand Early Tomato." Just the right size for home or market. Big Money Maker for Gardeners and Shippers. Originated on Famous Rock River Valley Seed Farm. The illustration gives a fair idea of its size and smoothness. The color is a rich, cardinal-red. The skin is so tough that it is a splendid keeper and shipper, and is less liable to crack in wet weather than any other extra early tomato we have ever grown. Unsurpassed for market or table. Pkt., 15c; 1/2 oz., 60c; oz., \$1.00; 1/4 lb., \$2.75; 1/2 lb., \$5.00; 1 lb., \$9.00, postpaid.

Extra Early—Large—Solid  
—Rich—Cardinal-Red

## BOUNTIFUL BEANS

Flat, Green-Podded Bush Bean. Prolific and continuous bearer. Very tender.

A green pod Bush Bean, which comes into bearing very early and continues throughout the season. Pods beautiful rich green, very thick, broad, long and uniform; meaty, tender, fine quality; absolutely stringless. Good shell Bean for winter use. A splendid market variety. 2-oz. pkt., 10c; 1/2 lb., 24c; 1 lb., 40c; 2 lbs., 70c, postpaid.

## 60-DAY SWEET CORN

This is the sweetest of all early corn. The ears are 7 to 9 inches long, well filled. The stalks are of a medium size, and several ears to stalk in good ground. Be the first one to market with corn by planting this variety. Big money maker. First early yellow corn sells for 35c to 50c per doz. Price, 1/2 lb., 25c; 1 lb., 40c; 2 lbs., 75c; 5 lbs., \$1.50, postpaid. NO DISCOUNT.

## CARROT

This new early coreless carrot is the best. Half long, round, blunt. Fine grained, orange-red. Price, pkt., 10c; 3 pkts. for 25c. No discount.

## RADISH

Cavalier cherry-red radish is the best, and most profitable. Large, tender and crisp. It's all you could ask in a radish. Price, pkt., 10c; 3 pkts. for 25c. No discount.

## LETUCE

Earliest Curled. Leaves light green, tender, and crisp. Best early forcing variety, or to be grown outside. Withstands extreme backward spring weather. None better. Price, pkt., 10c; oz., 20c. No discount.

## BEETS

New Red Fireball. Early, round and fine grained. Stays red when canned. Tops make fine greens. Sow seeds early. They are very hardy. Price, pkt., 10c; 3 pkts. for 25c. No discount.

## CABBAGE

The Very Latest Introduction in the Extra Early Round Headed Varieties. Dwarf, compact grower with few outer leaves. Heads run very uniform, averaging 6 to 7 lbs. Flesh is exceptionally white, tender and delicious. Supply very limited so order early, please. Pkt., 15c; oz., 50c; 1/4 lb., \$1.15; 1/2 lb., \$2.10; 1 lb., \$3.95, postpaid.

## MUSKMELON, Rock-o-Honey

Hyde is absolutely the last word in a melon. It's a cross of the Honey Rock and Hearts of Gold. They are large, sold as a rock. Sugarsweet, tender, fine grained. Smallest seed cavity ever seen. Golden orange-yellow. Price, pkt., 25c; 60c an ounce; 1/4 lb., \$1.95; 1 lb., \$7.00.

## WATERMELON, King of the Earlies

This medium sized, extra early striped variety is hard to beat for the northern part of the United States. Gets red clear to the outside and as tender and sweet as can be. Truly a wonderful melon. Price, pkt., 20c; oz., 35c; 1/4 lb., \$1.25; 1 lb., \$3.00.

## GOLDEN OBLONG PUMPKIN

The fruits are long and round. Bright golden yellow and smooth. They resemble an overgrown ripe cucumber. The seed chamber is very small, with few seeds. The flesh is exceptionally fine grained. Fruits never get over 14 inches long. Supply limited. Pkt., 15c; 3 for 35c. NO DISCOUNT.

# FLOWER SEEDS

We Offer You 12 of the Most Popular  
and Commonly Grown Flowers

## PANSY, Stromer's Giant Everblooming Prize Mixture

A carefully prepared mixture of the richest and largest Pansies grown. Year by year we watch the production of American and European specialists and secure everything necessary for incorporation into this blend. People who sow this strain in good soil may look to blossoms 3 to 3½ inches across and in a full range of color. Pkt., 15c; 3 pkts., 40c.

## STROMER'S Supreme Mixture of Spencer Sweet Peas

This is a well-balanced mixture of standard leading varieties of Spencer or Giant Orchid-flowered Sweet Peas. This seed is grown in mixture in the field to reproduce the seed stock and will give you excellent satisfaction. Pkt., 10c; oz., 17c; ¼ lb., 45c; ½ lb., 80c; lb., \$1.45.

## STROMER'S ENORMOUS FLOWERING ZINNIAS

This is our special blended mixture in proper proportion of the World's Largest Flowered Zinnias for those who desire the very finest color range. It includes 23 different large flowered types. Our supply of this special mixture is limited, so order early please. Pkt., 15c.

## STROMER'S DOUBLE GEM NASTURTIUMS

An evenly balanced range of cheerful colors on dwarf, compact gemlike plants. Ideal annual for borders and edgings. Even in rainy season they hold true to type. Color range includes yellow, orange, scarlet, crimson, salmon, cerise, cream, maroon and spotted varieties. Pkt., 10c; oz., 15c; ¼ lb., 40c; ½ lb., 70c.

## STROMER'S GIANT SUPREME SUNBURST MARIGOLDS

This grand mixture comprises a proper proportion of all the Tall Double African, Dwarf French and Little Brownie Marigolds. It will furnish an abundance of bloom all summer long, ranging in combinations of colors, yellow-brown, maroon, lemon-orange and striped effect. Pkt., 10c; 3 pkts., 25c.

## STROMER'S FOUR O'CLOCKS

Makes Delightful Hedge.

(Annual) Supreme Mixed Colors. The flowers remain closed until about 4 o'clock in the afternoon when they all open together and the plants become a glowing bank of vivid coloring, filling the air with their delightful fragrance. Height 2 feet, bearing hundreds of flowers of crimson, violet, yellow, white and spotted from early summer until frost. Pkt., 10c; 3 pkts., 25c.

## STROMER'S MORNING GLORIES

STROMER'S HEAVENLY BLUE. One of the few flowers of true blue and probably finest of all Morning Glories. Flowers measure 3½ inches across, deep blue. They blossom profusely and for a long season, opening in the morning. Sow two seeds in a 2-inch pot indoors in April and transplant to the open after the weather has settled in May. Pkt., 15c.

SCARLETT O'HARA. The face of the flower is bright, velvety rosy red, with five broad veins radiating from the throat. The flowers grow 3½ to 4 in. across and remain open longer than other Morning Glories. Profuse bloomer, more than 50 flowers have been counted on one plant in one day. Pkt., 15c.

Morning Glory  
Heavenly Blue

## Stromer's Mammoth VERBENAS

A Glorious Mixture of large flowering varieties. The flowers are, as the name indicates, mammoth size, with white eye. The buds are particularly attractive. For bedding nothing in the list is more satisfactory. Continuous bloomers all summer long. Pkt., 10c; 3 pkts., 25c.

Cosmos

## SNAPDRAGON Mixture

This glorious mixture embraces all the colors so far developed in this most outstanding garden flower. Pkt., 10c; 3 pkts., 25c.

## COSMOS

An extra early selection of charming Cosmos in mixed colors. Pkt., 10c; 3 pkts., 25c.

## New Giant ASTERS

Now you may plant this most popular flower with assurance of having an abundance of blooms on long stately stems in a wide range of color. Pkt., 10c; 3 for 25c; ½ oz., 50c.

## BALCONY PETUNIAS

Plain Edge

Showy plants with long branches covered with blooms, 2½ to 3 in. or more across. Equally as desirable for trailing from hanging baskets, porch and balcony boxes as for bedding and cutting. Pkt., 10c; 3 pkts., 25c.

# New REDHAVEN PEACH

Long before other early Peaches are coloring, Redhaven is flaunting its bright red-all-over dress! It colors beautifully, long before ripe, and can be picked and marketed at a high price, while still firm enough to ship well.

Redhaven ranks with the best peaches in richness of flavor, finesse and firmness of flesh, quality, yield, hardiness, and dependability. It bears a full crop after cold winters when other varieties fail.

It's a freestone, self-pollinating, extra-early peach that will get the first high peach prices, and bring extra profit for you.

## VANGUARD OF PEACHES

Right at the beginning of the peach season, when other early peaches are still green, Redhaven peaches are beaming from the tree like so many scarlet beacons! You can see them a great way off, and want to eat them even before they are soft! They get those first, eager, big peach dollars, for they set their own price.

## FAMOUS "HAVEN" FLAVOR

If you have grown and eaten South Haven and Hale-Haven, you have another treat in store when you taste Redhaven. It was originated by Stanley Johnston of the South Haven Experiment Station, who also originated the other "Havens." But this one tops them all, because it is so extra-early, yet such a hardy variety, big bearer, and dependable cropper. A real, all-around peach.

## BRIGHTEST RED DRESS

Redhaven has the brightest coloring of any peach. Looks like it's ripe 10 days or more before it's ready to pick.

## PEACH GROWER'S DREAM

Peach growers have always dreamed of having a peach that really had color, flavor, quality, quantity, and would ripen early enough to avoid price competition. Redhaven more than answers that dream. It is destined to stand with all the big-profit peaches. A freestone, perfectly self-pollinating variety. Get started with Redhaven this spring!
